Drumming retreat

Join us for our Fall Drumming Retreat led by Tom Campbell.

This retreat will be held on October 21st and we will focus on the Sacred Tree of Life, found in almost all wisdom and indigenous traditions. We will build a sacred tree with our own unique branches. Each attendee will take home their decorated branch from the tree.

The Sacred Tree represents life and the cycles of time. We will do lots of rhythmic and reflective drumming, listen to stories that will touch your heart, move in prayerful ways, bless any new drums, and hopefully, enter into a deeper part of who we really are.

No experience necessary - Drums will be provided OR bring your own

- This is a one day only retreat and includes lunch -

Grief counseling

Are you or someone you love grieving?

Circumstantial loss can mean many different things
including:

-  Divorce
 -  Loss of a job
 -  Children leaving the nest
 -  Cutoff or strained relationships with friends or family members
 -  Missing friends or family members who have relocated
- Or any significant change in your life that you need to process.

All of these can lead to grieving in some way. Come to our upcoming retreat to better understand your situation and share with others facing similar challenges.
