Which Marriage Preparation experience is best for us?

Is this a second marriage or is either spouse bringing children into the marriage?

YES

The NOVA mentorship program covers the basics for a happy, holy marriage AND offers specific sessions tailored for those with children or entering a second marriage, such as blending families and integrating past experiences.

NO

Which of the following most closely matches what you are looking for in a preparation experience?

1. A retreat. We want time to focus on our relationship, away from the demands of everyday life. Bonus points for a date-like feel and the opportunity to get to know others at a similar point in life.

2. Information. Please give us the information and we’ll figure out how to apply it on our own time!

3. Long term growth. Give us a chance to bring our authentic selves into a community of experienced (mentor) and new (other engaged) couples that cares about us and helps us learn, process, and grow.
